

第 77_1 项训练：矩阵运笔

The image shows a 5x10 dot grid divided into two horizontal sections. The top section contains two paths: a blue path and an orange path. The blue path starts at the second dot in the first row, moves vertically down to the second dot in the fifth row, then diagonally down-right to the third dot in the fifth row, then diagonally up-right to the fourth dot in the third row, then diagonally up-left to the fourth dot in the first row, and finally diagonally down-left to the second dot in the first row. The orange path starts at the seventh dot in the first row, moves horizontally right to the ninth dot in the first row, then vertically down to the ninth dot in the second row, then horizontally left to the seventh dot in the second row, then vertically down to the seventh dot in the third row, then horizontally left to the fifth dot in the third row, then vertically down to the fifth dot in the fourth row, then horizontally left to the third dot in the fourth row, then vertically down to the third dot in the fifth row, and finally horizontally left to the first dot in the fifth row.
